

**Capturing parents' voices is vital if we are to ensure that we can continue to strengthen the good practice already in place in school.**

**The data from the questionnaire tells us 100% of parents/carers feel their children are happy and well supported at Jakeman Nursery. 100% of parents feel staff are approachable and informative and 100% of parents who took part in the questionnaire feel Jakeman is a welcoming and friendly environment.**

### **Actions Points**

**Q 5** - We will offer a parent's suggestion board and parent workshop to identify how parents feel they can be more involved in their children's learning.

**Q 10** -The data also informs us that a high percentage of parents are unsure of the school development targets. The leadership team will work to make this more accessible.

**Q 11** - The data from the questionnaire has highlighted that we could do more to make parents aware of who our school governors are and the roles they perform in school. COVID 19 has had a huge impact on face to face visits to school in the last two years but we are planning visits for the autumn term where parents can meet governors.

We have also adapted our newsletter to ensure governors are identified within this more clearly. Our noticeboards in school (reception area and parents' space) have a list of governors. Photographs are being added.

**Q 12** - The data informs us that 81% of families feel children with special education needs are well supported in school, with 19% not answering the question.

### **Parents Comments - Summer Term 2022**

**'D' has really improved since he started nursery'**

**'I feel my child is safe when in nursery, all staff are helpful, very good'**
