

World Children's Day

Wednesday 17th November 2021

World Children's Day was first established in 1954 to promote International togetherness, awareness among children worldwide, and improving children's welfare. Since 1990, World Children's Day also marks the anniversary of the date that the UN General Assembly adopted both the Declaration and the Convention on children's rights.

World Children's Day is UNICEF's annual day of action for children, by children. The COVID-19 pandemic has resulted in a child rights crisis. The costs of the pandemic for children are immediate and, if unaddressed, may last a lifetime. It's time for generations to come together to reimagine the type of world we want to create for our children. On **Wednesday 17th November 2021**, children will reimagine a better world. What are we going to do?

We are turning nursery **BLUE**. Send your child to nursery wearing something **BLUE**. There will be **BLUE** activities.

The children will be learning all about climate change and looking after the planet, we will have lots of fun activities for children to join in with.

World Children's Day

Money raised will go to the charity **WasteAid UK**, who support families in poorer countries to learn how to reduce the negative impact of waste, create jobs, improve health and protect the local and global environment against climate change.

Please help support by making donations to this very important charity that helps children abroad to live in a safe environment and raise awareness about climate change. For more information, go to: <https://www.unicef.org/world-childrens-day#action>

Thank you in anticipation of your support.
